

Gold Medal Ribbon

Pierce the Veil

[Verse 1]

Are you up there?

Just give me a signal I'm reaching you now

'Cuz I remember the sound of your voice

But I don't remember what we talked about

It doesn't matter; that's a waste of time

So take off your rings and lipstick for me[Chorus]

I swear that I can hear you

In the wind

You're singing to me

And dancing in the holes outside again

I'm always listening[Verse 2]

Send me up into space on this rocket adventure

Looking for lights above the atmosphere

Gold medal ribbon till we die up here

It's self-sabotage, suffocation, the stale taste of blood[Chorus]

I swear that I can hear you

In the wind

You're singing to me

And dancing in the holes outside again

I'm always listening[Breakdown]

I'll teach you to love, oh

I'll teach you to love, oh

Again[Chorus]

I swear that I can hear you

In the wind

You're singing to me

And dancing in the holes outside again

I'm always listening

I'm always listening(I swear, I swear, I swear, oh)
