Questions

Home Town Hero

Everyone is made to break some
But it's already happened today
So sing it fast, and sing it with the right tone
Or end up like another hero deadWe're waiting for answers that nobody knows
We started to follow so long ago
'Cause I've been waiting and I've been waiting
Waiting for answers that nobody knowsEveryone is made to die some
And it already happened today
So kill it fast and kill it while you don't know
Or end up like another hero deadWe're waiting for answers that nobody knows
We started to follow so long ago
'Cause I've been waiting and I've been waitingWe're waiting for answers that nobody knows
We started to follow so long ago
'Cause I've been waiting and I've been waiting
Waiting for answers that nobody knows
