

# Hard Believer

[Fink](#)

I can see the light coming  
I can see the light coming  
Over the hill, over the hillHard Believer  
Hard Believer

Won't you believe, won't you believe me nowWe were made for each other  
won't you believe me now  
We were made for each other  
won't you believe me nowI can hear the silence  
I can hear the silence  
Golden like the new sun
