The Seduction

He Is Legend

Where did she go?
I do not know in which direction was it snowing?
I'll turn around again
Paint over pictures on the wall
I can't believe she gave me alcoholI thought of Jezebel
Hung from a wrecking ball to see a fashion show
I think you know me well
I think you know me well
You know me well, you know me wellJuliet, you know you want it
You know you want it
You know you want it
You know you want itIve been receiving strange phone calls from the city
And I will not extend my hand to the general
And I do not think the people will remember us
AlrightHung from a wrecking ball to see a fashion show
I think you know me well
I think you know me well
Break it downIve been receiving strange phone calls from the city
And I will not extend my hand to the general
And I do think the people the people will remember us
I wanna find out where you liveHung from a wrecking ball to view a fashion show
I think you know me well
I think you know me wellIve been jumping over buildings
Ive been sleeping in the street
Mr. Jones will be right with you
If you would just have a seatWell, Ill meet you at the river
Where we both can clear our heads
I think we would look great dead
Ive gone so far to find the princessShe's in the other castle
And Im dancing with a Capulet
Were so crazy in loveJuliet, you know you want it
You know you want it
You know you want it
You know you want it
