Chaos Descends

Cirith Ungol

The might of chaos descends as we join the fight
Against our common foe the jaws of fate
War unleashed the stench of spells
As we thrust our fists into the face of hellChaos descendsThe final battle begins left or right who decides?
Their mortal terror touches the sky
The beasts of hell blacken heaven's eye
We shout our fear to a soulless skyChaos descendsAshes to ashes war sweeps the land
Burn the world the curse of man
No one heeds the call judgement day
Their iron dream swept away
