

Coming To You

Jill Scott

I'm on my way to show ya
I'm not gon' wait beside the road no no
I know the world's been gettin' to ya babe
It's such a such a heavy load
You need to hold on Ooh, they're gonna tell you turn your head now
From love and hate instead
Don't let your heart be confused no more
Don't be mislead
I'm almost there
Baby And when I get to ooh
And when I get to you babe
Gonna leave all that old stuff on the floor
We're gonna take love higher baby
To heights they've never seen before
And they gon' say
Wooh
'Cause they can feel it too
In every part of the room
In a deep full bloom
And soon
I'm comin' to you baby
I'm on my way
I'm almost there
I'm comin' to you I know you're tired of waiting
Baby baby what you been through
I think I know what make you feel good
How 'bout a slice of fan
So good that you can taste it
Baby please don't you waste it
You just don't know how much I missed ya
No need to wait now
I'm on my way
Now And when I get to
When I get to you babe
Gonna leave all that old stuff on the floor
We're gonna take love higher
To heights they've never seen before
And they gon' say
Wooh

They can feel it too
Love in the room
In a deep full bloom
And soon
I'm comin' to you
I'm comin' to you baby
I'm almost there
I'm comin' for you
I play the winning team, baby
I'm almost there
Ain't no stopping me
For getting to you honey
I've got so much love to give (Break it down) Some people
They don't understand
How music can pull up
And help rebuild a man
It put color where it ain't
Put color where others can't
Ooh
I'm almost there But when I get to you
But when I get to you
Gonna leave all that old stuff on the floor
We're gonna take love higher baby
To heights they've never seen before
And they gon' say
Wooo
'Cause they can feel it too
In every part of the room
In a deep full bloom
And soon
I'm comin' to you baby
Baby baby
I'm almost there
I'm comin' to you
