

Goodbye

Meth Wax

My head rolls onto the floor
She says she can't do this anymore
My skin peels off into rolls
And I know it's time I let this go

Say goodbye
Say goodnight
Say goodbye
Say goodnight

My head slowly will collapse
And I know there's no turning back
Good times melt into my brain
But this time things won't be the same

Say goodbye
Say goodnight
Say goodbye
Say goodnight
