

What's the Matter with Me

[Deborah Allen](#)

WHAT'S THE MATTER WITH ME(Deborah Allen - Rafe VanHoy - Don Cook)You only get around to me
when someone else has said goodbye
Somehow you only want the ones who noly going to make you cry
It seems no matter what you do you never get their loving affection
It should be obvious to you you're looking in the wrong directionWhat's the matter with me
What do I have to do to make you see
Just how good it could be
If it's really love that you need
What's the matter with me
