Future Love

Varsity Fanclub

Mmm, yeah, oh oh, yeah
A couple of years
And I'm gonna know your name
It's like I waited for ya forever
And I know this might sound insane
But it won? be long
'Til we're gonna take this up
What I?m talking about is our future love
You're so far away
Maybe you're right next door
Got me picturing your face again
Something worth waiting for
I put all others behind me
They don't live up
I know you?re my thing
You were made just for me
Baby if they asked me
I would say I don't even know your name
And when they asked me, does it change?
No, it don't change a thing
Cuz there's something about the way you'll love me
There's just something about the way you'll know me
That I can?t explain enough
There's just something about our
Future love, future love, future love
There's just something about our
Future love, future love, future love
Walking hand in hand
Going on a second date
I can picture what you're wearing
And I swear I can hardly wait
The thought of all the ways
We'll meet for the very first time
I can see the place, feel the love, first sight
Baby if they asked me
I would say I don't even know your name
And when they asked me, does it change?
No, it don't change a thing

Cuz there's something about the way you'll love me
There's just something about the way you'll know me
That I can?t explain enough
There's just something about our
Future love, future love, future love
There's just something about our
Future love, future love, future love
Oh no, the minute you pull up next to me
We standing there like destiny
When it feels like you're fighting just to breathe
That's when you?ll know
The minute I pull up next to you
Suddenly I don't know what to do
Everything inside you says that I'm the one
Baby if they asked me
I would say I don't even know your name
And when they asked me, does it change?
No, it don't change a thing
Cuz there's something about the way you'll love me
There's just something about the way you'll know me
That I can?t explain enough
Baby if they asked me
I would say I don't even know your name
And when they asked me, does it change?
No, it don't change a thing
Cuz there's something about the way you'll love me
There's just something about the way you'll know me
That I can?t explain enough
There's just something about our
Future love, future love, future love
There's just something about our
Future love, future love, future love
There's just something about our
Future love, future love, future love
Future love, future love, future love
Future love, yeah, ooh, oh
