

Blood and Iron

Overkill

Out for blood, take no prisoners
Out for the kill and looking for donors
As terror strikes, give your life
We drink your blood, a human sacrificeAhh, stick in the knife
Uhh, for blood and iron
Iron
Blood and ironThirst for more, our chosen path
Awake and find the devil's wrath
All those who dare and those who disobey
Alone you'll find, dead as yesterdayAhh, fight for you life
For blood and iron
Iron
Blood and ironAlright donors
DonateFlesh of steel, a legion of donors
We are one as our blood transfers
New found power raging through your veins
Blood metal donors eat the last remainsFor blood and iron
