

# The Fool

## Old 97's

He came from Phoenix in a borrowed VW bug  
To be somebody or just be somebody  
Who came from Phoenix in a borrowed VW bug  
Just to prove that he was on her like she was a drug  
Hallucinogenic with no hangover at all  
She kept quarters in a jar, in a drawer in her desk  
In receipt, a baby deep in the valley, girl  
She will give him what she wants if he will only ask  
He will give her what is left in his life  
Of this mess which will end in no time at all  
There is love everywhere you go  
But it is never enough  
He met his tragic fate in an automobile  
With a relatively innocent young girl  
Who would've blamed all the fate  
Sat behind the wheel, just to prove the point  
Nothing, nothing is real  
Except the very thing you can't believe at all  
And there is love everywhere you go  
But it is never enough  
He came from Phoenix in a borrowed VW bug  
He was the kid voted most likely not to return  
To Phoenix in a borrowed VW, what did he care  
Tomorrow we're all gonna burn  
Which you know, so it's no surprise at all  
There is love everywhere you go  
But it is never enough  
Nah, it's never enough  
Love is gonna come, you gotta work it out  
You got to be a fool to be a fool in  
Love is gonna come, you gotta wait it out  
You got to be a fool to be a fool in  
Love is gonna come, you gotta coax it out  
You gotta be a fool to be a fool in  
Fool to be a fool in  
You got to be a fool to be a fool in  
Fool to be a fool in love
