

Rock 'n' Roll

Kid Rock

Break out the whiskey in a bottle of wine
Take your shirt off bitch and chop me out a line
Dim the lights down low, turn up the stereo and
Don't say a word I already know You've never done this before but you feel like tryin'
I've done this plenty of times and I know you're lyin'
You know I know, hey hey yeah yeah Ooh oh yeah
Yeah yeah yeah You want a shot so I will take aim
Don't even ask me if I know your name
Don't look so shocked, do not be confused
I just wanna shoot your soul, full of rhythm and blues Them boys been sellin' you lines
But you ain't been buyin', buyin'
But what I'm given is free
So it's well worth tryin' Because I know you like to rock 'n' roll
You like to rock 'n' roll
I'll rock you baby all night long
Then I got to roll Oh oh oh
Oh oh oh There's no one left here we can blame, yeah yeah yeah
It's a lonely walk of shame, I know, we gonna rock 'n' roll
Can you feel that? I said can you feel that?
I'm gonna roll now, I'm gonna roll now
I'm gonna roll now, roll now You used to like to disco
Now you wanna rock 'n' roll Bus is leavin' baby, we're pullin' out
Them Austin Dallas Houston girls are callin' us out
Girl, dry them eyes, I'm not good at goodbyes
Tell all your friends I'm that type of guy That'll bring out the women
That you've been hidin'
It's human nature to be
What we've all been denyin' Baby don't sell tickets
To a player that's already playin'
Just be who you are
But understand what I'm sayin' That everybody likes to rock 'n' roll
They like to rock 'n' roll
Rock 'n' roll
They want to rock 'n' roll Rock 'n' roll
They like to rock 'n' roll
Love me baby all night long
