

Wildfire

Tinashe

Feel the calm before the storm
I'll be leaving in the morning
You were my sweet summer song
But the summer's gone and I can't keep your fire burning[Pre-Chorus]

You're poison running through my veins
End it with a spark into a pool of gasoline[Chorus]

Wildfire

Flames rising

Hit me like a bullet

Finger on the trigger pull it, pull it

Wildfire, burn baby

Burn for me[Verse 2]

Cash is grassed in the sand

As they swept into the sea

I could never understand

How you're easy come easy go

As you please[Pre-Chorus]

You're poison running through my veins
End it with a spark into a pool of gasoline[Chorus]

Wildfire

Flames rising

Hit me like a bullet

Finger on the trigger pull it, pull it

Wildfire, burn baby

Burn for me[Chorus]

Wildfire

Flames rising

Hit me like a bullet

Finger on the trigger pull it, pull it

Wildfire, burn baby

Burn for meLet me go let me go

Let me go let me go

Let me go let me go

Let me go let me go[Chorus]

Wildfire

Flames rising

Hit me like a bullet

Finger on the trigger pull it, pull it

Wildfire, burn baby

Burn for me
