Got To Let Go

The Bees

Tell me something, a way from trouble
And a way from doubting
Tell me straight from the [Incomprehensible]
From the top of the mountainLet love be the reason between me and you
As real as the morning, as fresh as the dew
If he's got a hold then it's up to you
It's a simple thing we've got to doJust a listening man
Try to understand
Just a listening man
Do the best I canTell me something before I stumble
And show my weakness
Tell me right on the line
Why I'm fighting for progressI can hear, there's a sound
That's coming through
There's a post in the ground
So what we gonna do?You can have all your dreams
If you really believe in something
In something trueJust a listening man
Try to understand
Just a listening man
Do the best I canJust a listening man
Try to understand
Just a listening man
Can carry through this landTell me something without any lies
That cover my feeling
Give me time now, I understand
These lessons have meaningLet love be the reason between me and you
As real as the morning, as fresh as the dew
If he's got a hold then it's up to you
It's a simple thing we've got to doJust a listening man
Try to understand
Just a listening man
Do the best I canJust a listening man
Try to understand
Just a listening man
Can carry through this landJust a listening man
Do the best I can
Just a listening manI'm a listening man
I'm a listening man

I'm a listening man
I'm a listening man
