

# I Care

Tom T. Hall

When the TV won't work and your toys fall apart  
And you have a sad feeling deep in your heart  
You wanna go out but it's rainin' out there  
I want you to know, I care I care, I do, there's no one like you  
When they take you some place  
And you sit in a chair  
I want you to know, I care When you tell a big lie and your parents are mean  
When being grownup is a faraway dream  
When you're fillin' your teeth and cuttin' your hair  
I want you to know, I care I care, I do, there's no one like you  
I mention your name  
When I'm sayin' my prayers  
I want you to know, I care When you have a bad cold and you can't go out  
When you sit for a week with that thing in your mouth  
When you sleep in the dark and there's something out there  
I want you to know, I care I care, I do, there's no one like you  
And sometimes I act  
Like a grouchy old bear  
I want you to know, I care I love you too much
