Our Eyes (Demo) [Bonus Track]

Teddy Geiger

You seem so afraid, afraid you'll regret
Regret getting closer and connected to me
And I feel like that too, but I'm scared
Scared you'll leave while you feel you still canSo I'll just wait and see
So I'll just wait and seeLet our eyes say words, we'll leave unspoken
When we're trying to be careful
And words can be so confusing
When we're trying to be careful, but not too carefulFear it has its place folded in squares
Squarely tucked in the back pocket
Of all mind and it reckless to laugh
Pointless to decide, just let your world collide with mineLets not wait and seeLet our eyes say words, we'll leave unspoken
When we're trying to be careful
And words can be so confusing
When we're trying to be careful, but not too carefulWhat's the average number of times
People feel this way in a life time
Lets not waste more timeLet our eyes say words, we'll leave unspoken
When we're trying to be careful
And words can be so confusing
When we're trying to be careful, but not too careful
