

# Cream

## I Got You on Tape

Cream on me, you will always be  
My deepest love, yeah, yeah  
Cream on me, you will always be  
My deepest love  
I get an early start  
I know we're far apart  
My family, they need me  
But daddy's never home  
I call you on the phone  
You say you're all alone  
Surrender my feelings  
And try to make it work  
Cream on me, you will always be  
My deepest love, yeah, yeah  
Cream on me, you will always be  
My deepest love  
All this time, I draw the line  
I'm gonna see it through  
Till things get better  
I won't cry and I can't deny  
My days are coming  
And you know I'm ready  
Till things get better  
Till things get better  
It's getting hard to change  
Can't get back yesterday  
The pictures remind me  
The story fills the page  
I think of all the days  
Limelight and self-decay  
My suitcase gets weaker  
My voice sure needs a break  
Cream on me, you will always be  
My deepest love, yeah, yeah  
Cream on me, you will always be  
My deepest love  
Cream on me, you will always be  
My deepest love
