Tumbleweed

Corey Kent White

There's some lipstick on a note that says goodbye
From a new girl in some other town tonight
She rolled in from the west on a sunset desert breeze
Well she's leaving nowhere lonely just like me

Tumbleweed
You went and tangled up this heart of mine
Tumbleweed
Well I think about you damn near every night
I knew you wouldn't stay but I loved you anyway
Tumbleweed
You ain't always gotta go
Where the wind blows

Some things just ain't meant to stay at home
One day they're here the next they're gone
Steal your breath, take your wind, leave a cloud of dust behind
Every time

Tumbleweed
You went and tangled up this heart of mine
Tumbleweed
Well I think about you damn near every night
I knew you wouldn't stay but I loved you anyway
Tumbleweed
You ain't always gotta go
Where the wind blows

Instrumental

Tumbleweed
You went and tangled up this heart of mine
Tumbleweed
Well I think about you damn near every night
I knew you wouldn't stay but I loved you anyway
Tumbleweed
You ain't always gotta go

Where the wind blows

Where the wind blows

Some lipstick on a note that says goodbye
Find a new girl in some other town tonight
