Running In Place

10 Years

The sounds bounce around
The noise just drowns me out
To fast, to focus, nothing is showing
Any sign of slowing downDreams feed to me
In the form of a magazine
I can't control it, channels have chosen
What I'm supposed to beIt's hopeless
As far as I can see
There's no rest
'Cause we're stuck on repeatStand here and wait for the world to finally stop
Running in place, chasing after what we
Don't need, keep running
I'll stand here and wait for the worldBright flashing lights
The ads just fill me eyes
Colors colliding, voices inviting
Me to buy a better lifeShe speaks to me
He knows just what I mean
I can't control it, I have to own it
Everything is made of greenIt's hopeless
As far as I can see
There's no rest
'Cause we're stuck on repeatStand here and wait for the world to finally stop
Running in place, chasing after what we
Don't need, keep running
I'll stand here and wait for the worldFor the world to finally stop
Chasing after what we want
Take it all away, flush it all away
We won't changeI'll stand here and wait for the world to finally stop
Running in place, chasing after what we
Don't need, keep running
I'll stand here and wait for the worldFor the world to stop
For the world to stop
For the world to stop
For the world to finally stop
