

# Potential Futures

## Duels

So Jimmy DaLancia breaks his back  
Then says it's unbelievable  
Why we have to work so hard  
And I can't take it anymore

She says that just because it's difficult  
It does not mean that we have no choice  
Oh no  
Everything is possible  
And we say yes to anyone

Potential futures make a life  
Put your hand up and shield your eyes  
Potential futures it's all possible  
No one's alone there in the future  
Potential futures make a life  
Put your hand up and shield your eyes  
Potential futures it's all possible  
No one's alone there in the future

Feeling the strain but not breaking down  
Your mother had enough of this old town  
Jimmy I must leave this place  
Cause I can't take it anymore

Potential futures make a life  
Put your hand up and shield your eyes  
Potential futures it's all possible  
No one's alone there in the future  
Potential futures make a life  
Put your hand up and shield your eyes  
Potential futures it's all possible  
No one's alone there in the future

Maybe it's all in your mind  
Perhaps that we all died, say, years ago  
Now what do you have left  
Future dreams of passion plays and dancing people  
All, so, lonely

Potential futures make a life  
Put your hand up and shield your eyes  
Potential futures it's all possible  
No one's alone there in the future  
Potential futures make a life  
Put your hand up and shield your eyes  
Potential futures it's all possible  
No one's alone there in the future

La laa la la laa  
La la la laaa  
La laa la la laa  
La la la laaa  
La laa la la laa  
La la la laaa  
La laa la la laa  
La la la laaa
