Knocked out

Cheifs, The

Pushed out from the standing start
Forced to run
I was minding my own heart
Before the gun
I'm the silence in the noise thats trying to break through
Say its only for the best so I can breathe
Phoenix buried in the mess inside of me
I don't understand the hurt
Why you put it on me
So you be who you wanna be
And I'll be me
[CHORUS]When I get knocked out
Before you count to ten
I'll get up again
And if I get knocked down
After I hit the floor
I'll be coming back, are you?
Don't underestimate me
Be careful when you hate me

Don't underestimate me
When I get knocked down
I know where I wanna go
That's up to me
Might not be there yet you know but I will be
Send an arrow where it hurts and I'll be okay
There's always something in the way
If you let it stop you
So you be who you wanna be and I'll be me
[CHORUS]Say its all just been a test to get back to me
Send an arrow where it hurts and I'll be ok
There's only one way I can live and that's my way
So you be who you wanna be and I'll be me
[CHORUS]I'll be coming back, are you?
When I get knocked out
