All Faces Down

right now we stand for everything
what we do, what we are, what we're living for
in this band we can fucking deal with anything
doesn't matter if it's poppunk or hardcore

cause we want it swallow that shit
if you need it let it burn the whole way down
cause we want it we choose our way
and we walk it cause we have the choice

it's the fate of the lifes we are living for
now we live it as one even more
we do chase our dreams, we do choose our ways
we break free from these chains in this place

cause we want it swallow that shit
if you need it let it burn the whole way down
cause we want it we choose our way
and we walk it cause we have the choice

we are honest if we say we want nothing more
than make music, the element that connects us all
yeah we feel it, we do bless the way it touches our souls
and we will continue till the last one feels it too

we were too blind, too bad, we wasted time
now there's a chance, right now we sense a chance
we rise, we rise, we rise
we rise, we rise high

loud

loud

we break out, we choose our ways and we use cooperation
right now we stand as one you fucking fuck
