

Sorry But It's Over

[dredg](#)

Distorted and complicated
I'm sorry but it's over
Essential to awaken
How moving
Here we are
That's what it's all about
I'm sorry but it's over
To love here and to love this
I'm finally breathing Before you go
There is something more to say Persistent resentment
I'm sorry but it's over
Seduction for destruction
I'm finally breathing To love this, all this
It's what it's all about all the way Before you go
There is something more to say
