

# Don't Happen Twice

[Kenny Chesney](#)

I haven't seen you in forever  
Oh, you haven't changed a bit  
You didn't think that I'd remember  
How could I forget We sang Bobby McGee on the hood of my car  
Made a wish on every star in that clear September sky  
One bottle of wine and two dixie cups  
3 a.m I feel in love for the first time in my life  
Oh, that's something that just don't happen twice To this day I still taste that first kiss  
How I prayed it wouldn't end  
In a way, seeing you like this  
I guess it never really did We sang Bobby McGee on the hood of my car  
Made a wish on every star in that clear September sky  
One bottle of wine and two dixie cups  
3 a.m I feel in love for the first time in my life  
Oh, that's something that just don't happen twice One bottle of wine and two dixie cups  
3 a.m I fell in love for the first time in my life  
Oh, that's something, baby that's something  
Oh, that's something that just don't happen twice Oh, yeah  
We sang Bobby McGee on the hood of my car  
Made a wish on every star  
One bottle of wine and two dixie cups  
Yeah, we fell in love
