Do you love where you're going?
Do you hate where you're from?
Is there something that you've been chasing?
Is that why you run? Is that why you run?The future is yours, girl
The future is yoursSarah, Sarah
I heard you left for the coast
Sarah, Sarah
I'm in love with a ghost
Sarah, Sarah
Any way the wind blows
Do you doubt where you're heading?
Do you miss where you've been?
Is that why you get scared and start over
When it's time to commit?
When it's time to commit?The future is yours, girl
The future is yoursSarah, Sarah
I heard you left for the coast
Sarah, Sarah
I'm in love with a ghost
Sarah, Sarah
Any way the wind blowsYou're so present from a distance
And you're so distant when you're hereWhen you feel lost
Do you blame the map you have been given?
Sarah, Sarah
I heard you left for the coast
Sarah, Sarah
I'm in love with a ghost
Sarah, Sarah
Any way the wind blows
Sarah, Sarah
I heard you left for the coast
Sarah, Sarah
I'm in love with a ghost
Sarah, Sarah
Any way the wind blowsYou're so present from a distance
And you're so distant when you're here
