Better Love Next Time

Christian Ingebrigtsen & Liv Marit Wedvik

I wish I could have given you everything you need
The power to believe the stuff that sets you free
I wish I were the answer to everything you want
Shelter from the storm, somewhere to belongIt's not easy to make dreams come true I know
So this much I wish for you before you goBetter love next time baby for all eternity
Even if it's not with me I wish you all that love could be
Maybe the next time baby the sun will wanna shine
Seek and you will find better love next timeI hope you find someone to give you what I couldn't give
Though I just can't imagine what that something is
I hope you wake up everyday with roses at your door
Someone to live for, a heart that knows for sureBut if I can't be the one to hold your hand
(The one to hold you)
No sense stopping you if there's someone who canBetter love next time baby for all eternity
Even if it's not with me I wish you all that love could be
Better love next time baby the sun is gonna shine
Seek and you will find better love
(Better love, next time)I don't wanna see you walk away with someone else
Wanna keep you here all to myself
Believe me if I could I would
(Believe me if I could I would)
Gonna take a lot of love to let you go
But anyone who ever loved like this would know
Ohh they would know(Next time baby)
(I hope that's what you get)
I hope that's what you get
(Remember me with no regrets)
(Live in peace and happiness)
Better love next time baby
Somewhere down the line
Seek and you will find
Better love
Next time
(Next time, next time)
