Cold Hard Rock

Foe

I watched my lover love another on the cold hard rock
I saw my lover take another on the cold hard rock
I watched my other take his clothes off on the cold hard rock
I saw my lover kill another on the cold...
Sea's coming it's dragging me down
Sea's coming it's pulling me down
Sea's coming it's dragging me down
Sea's coming it's coming
Tonight I'll try to change the rules of time
This rock erodes, erodes like all yours lies
Tonight I'll try to change the rules of time
I'll sink into the sea for all time
I lost my mind while I was dancing on the cold hard rock
I lost my heart one night when I was on the cold hard rock
Let's take our shoes off and go swimming by the cold hard rock
Let's make a mountain out of nothing but just cold hard rock
Tonight I'll try to change the rules of time
This rock erodes, erodes like all yours lies
Tonight I'll try to change the rules of time
I'll sink into the sea for all time
I watch my love out on the rocks
I watch the world
I watch my love out on the rocks
I watch the world I watch the rock
I watch my love out on the rocks
I watch the world I watch the rock
I watch my love out on the rocks
I watch the world, yeah, I watch
Sea's coming it's dragging me down
Sea's coming it's pulling me down
Sea's coming it's dragging me down
Sea's coming it's coming
Sea's coming it's dragging me down
Sea's coming it's pulling me down
Sea's coming it's dragging me down
Sea's coming it's coming
