

# Honey Child

## Royal Crown Revue

Sometimes your love is just like honey  
So sweet and wild, so sweet and wild  
Sometimes your love is just like a menthol  
So cool and nice, so cool and nice, yea That's why I don't want no other lover  
Nobody but you, Honey child, Honey child You got a funny little way, a way of teasin'  
Feels so right, yea so right  
You've got a way, yea such a way  
Through the night, all through the night That's why I don't want no other lovin'  
Nobody but you, Honey child, Honey child You got a brand of lovin'  
Set me soul on fire  
You got a brand of kissin'  
Ohh, drives me wild That's why I don't want no other lover  
That's why I don't want no other lover  
That's why I don't want no other love  
That's why I don't want no other love  
Yea, why I don't want no other love  
Hey, I don't want no other love  
I can't have only love  
I gotta have only love  
You gotta give me your love, baby
