

Holiday (Joe Bermudez & Chico Remix)

Hilary Duff

I remember summers, you and me lasting forever
Holidays come and we'd never, never ever be apart
I remember spending all of my time, every minute
The two of us we had our own rhythm, in tune with the beat of my heart
Now in the summer I miss you
And in the winter I miss you
It don't matter what I do
Since you went away, since you went away
Now in the summer I miss you
And in the winter I miss you
It don't matter what I do
It don't matter what I say, you left it
You took a holiday from us
Took a trip and left your love
If your heart wasn't down forever
You should have told me where it was
You took a holiday from me
I guess you needed to be free
Would have loved you with no measure
And now you got me asking
Where did you go huh? Where did you go huh?
Where did you go huh? Where did you go huh?
Where did you go and where did my heart go?
You took a holiday
Where did you go huh? Where did you go huh?
Where did you go huh? Where did you go huh?
Where did you go and why did you leave?
This ain't no holiday for me
Walkin', watching you leave, there's no talking
Back on my own, it's so shocking, guess forever was just a dream
I think we could have made it but our history now is fading
My image of the future's changing
And baby damn that thing called destiny, got the best of me
Now in the summer I miss you
And in the winter I miss you
It don't matter what I do
It don't matter what I say, you left it
You took a holiday from us
Took a trip and left your love
If your heart wasn't down forever
You should have told me where it was
You took a holiday from me
I guess you needed to be free
Would have loved you with no measure
And now you got me asking
Where did you go huh? Where did you go huh?
Where did you go huh? Where did you go huh?
Where did you go and where did my heart go?
You took a holiday
Where did you go huh? Where did you go huh?
Where did you go huh? Where did you go huh?

Where did you go and why did you leave?
This ain't no holiday for meIf I could take a step back, make it turn out different
I would hide those bags and I'd tear that ticket
Never thought you and me would be done in a minute
Now I'm making new plans and you're just not in itIf I could take a step back, make it turn out different
I would hide those bags and I'd tear that ticket
Never thought you and me would be done in a minute
Now I'm making new plans and you're just not in itYou took a holiday from us
Took a trip and left your love
If your heart went down forever
Should have told me where it wasYou took a holiday from me
I guess you needed to be free
Would have loved you with no measure
And now you got me askingWhere did you go huh? Where did you go huh?
Where did you go huh? Where did you go huh?
Where did you go and where did my heart go?
You took a holidayWhere did you go huh? Where did you go huh?
Where did you go huh? Where did you go huh?
Where did you go and why did you leave?
This ain't no holiday for me
