No Time At All

Dropline

It took so long just to get here
I don't even know if it's true
But what I found when I got here
Is all I really needed was youAnd come on
Don't want you to be that photograph
That haunts me
Yeah
When I'm gone
I'm not gonna leave
I told you that beforeIn no time this won't hurt
In no time at all
And don't say this won't work
In no time at allI took a drive
But I can't steer
I'm barely holdin' on to the wheel
Missed the road to get back here
And I just want to know how it feelsAnd come on
Don't want you to be that photograph
That haunts me
Yeah
When I'm gone
I'm not gonna leave
I told you that beforeIn no time this won't hurt
In no time at all
And don't say this won't work
In no time at allWe need love...
We need love...
Oh!Come on
I want you to be here
Come on
Be here with me now
Come on
I need you here
It's the only way
It's the only wayIn no time this won't hurt
In no time at all
And don't say this won't work
In no time at allWe need love...
We need love...
