

# Just a Thing That I Do

## Major Harris

See the little fish swimming round and round, Its not because they want to its just thing they do.

In the fall squirells gather nuts from the ground, Its not because they want to its just the thing that do.

What makes a guy like me look at the nighttime sky and see the sun, when I know darn well that's the moon.

It's because I want to, but girl, just the thing that I do when I think of you.

Every question, has an answer, but in my mind they'll seldom be

Although I'm a poor old man, girl I feel just like a king, whenever you are near.

Listen darlin, sometimes your best friends seem to let you down, it's not because they want to, it's just the thing  
that best friends do.

Sometimes your loved ones make you feel like they don't want you around, it's not because they want to it's  
just the thing that loved ones do.

What makes a guy like me look at the night time sky and see the sun when I know darn well that's its the moon.  
It's not because I want to, its' just the thing that I do when your around.
