

Strip Club

Marques Houston

Damn

Here I go again, here I go again

Can't believe this

Not again . . .

v 1

So many nights

I'm in the strip club just looking for some fun

So many nights

I'm ready with my five hundred ones

But every time

I see me one I gotta be alone with

I got my twenty twin-twin

She be jacking my end

She might be on the poll

all up against the mirror

Lipstick with all that glitter

throwin' them heels this way

(and you know)

She got that body

Trickin' that body

(And you know

She got that booty, quacking that booty

chorus

I always seem to always fall in love

at the strip club

I was only looking for a lap dance

there she was

Up on the stage getting that cash

there she was

I damn near tipped her all that I had

Tell me how I always fall in love

That strip club love

Gettin' love at the club

Ain't what a nigga supposed to do?

But I can't help it ya'll

This playa done took a fall

I'm always falling in love

at the strip club

v 2

I tipped her but she never let me touch
But tonight she let me feel on that big old butt
And then every time
Thought I had her cause I got her real name
Damn I can't believe how a stripper got me again
She had me on the poll
All against the mirror
Glitter all over my throwback
Smelling like I was with her
She got that body
Trickin' that body
(And you know
She got that booty, quacking that booty

chorus

I always seem to always fall in love
at the strip club
I was only looking for a lap dance
there she was
Up on the stage getting that cash
And there she was
I damn near tipped her all that I had
Tell me how I always fall in love
That strip club love
Giving love at the club
And what a nigga supposed to do?
But I can't help it ya'll
This playa done took a fall
I'm always falling in love
at the strip club

bridge

She ain't happy here
She just need the money
I brought them drinks
And that's what she told me
So I got the digits
Cause I think she's with it
And she put me on like I'm gon' get it
But hold on, wait a minute
This shouldn't happen
but I'm falling in love again whoa

chorus

I always seem to always fall in love
at the strip club
I was only looking for a lap dance

there she was
Up there on the stage getting that cash
And there she was
I damn near tipped her all that I had
Tell me how I always fall in love
That strip club love
Gettin'love at the club
Ain't what a nigga supposed to do?
But I can't help it ya'll
This playa done took a fall
I'm always falling in love
at the strip club
I love them girls named fantasy
I love them girls named extacy
I love them girls the way they bounce on me
And if you feelin' me, throw your ones up with me
I love them girls named fantasy
I love them girls named extacy
I love them girls the way they bounce on me
And if you feelin' me, throw your ones up with me
