You Get Me Lost

Freedy Johnston

Did I wake you up again?
Talking in my sleep
Unfamiliar afternoonWe were out for a little while
Voices from the street
Sunlight in a rented roomI don't know how
You get me lost
Forgotten where I'm running fromI have found
You get me lost
And I don't care where we're goingI'll follow you to your cloud
Or meet you underground
Take me with you either wayWhat if we'd never met
You lead me to forget
What I was about to sayI'm turned around
You get me lost
Directions wrong, way unknownI have found
You get me lost
And I don't care where we're going
