

# It's How We Play

Holly Palmer

Whether we win or lose or what we choose  
It's how we play  
Don't try to change it, rearrange it  
Just go all the way  
People always talking  
but I keep walking right on through my day  
And no matter where I go  
when I just don't know when it's hard to say  
Baby let's fly without the man  
let's just forget all the reasons why  
just let me go  
And love will flow  
Just let me go  
So much ambition, we all make promises  
Just that's how we play  
Show me mercy, mercy  
People always talking  
but I keep walking right on through my day  
And no matter where I go  
when I just don't know when it's hard to say  
I'll here on my own. I don't like comfort zone  
Living the dreaming world. it's see, I thinking we got it man  
And just ain't real and it's not the way the feel
