

Faithless

Black Veil Brides

Behold the new hate with all the same

Lost values

Forsake what lives deeper

In death we're all believers

Raised up your sirens

Break through the silence

We are united in the search of

Something more

Cross your heart

Open you mind

Hide your face in their disguise

Even when I fall down to my knees

I never say a prayer I don't believe

And I don't wanna look up to the sun

But I will never be the faithless one

No I will never be the faithless one

Refuse to destroy

The altars we are serving

The truth in living

Is that our souls are searching

Live with defiance

It's time to fight

Don't ever let them keep your words

From being heard

Cross your heart

Open your mind

Hide your face in their disguise

Even when I fall down to my knees

I never say a prayer I don't believe

And I don't wanna look up to the sun

But I will never be the faithless one

No I will never be the faithless one

Even when I fall down to my knees
I never say a prayer I don't believe
And I don't wanna look up to the sun
But I will never be the faithless one

Even when I fall down to my knees
I never say a prayer I don't believe
And I will never look up to the sun
But now I wanna be the faithless one

No I will never be the faithless one
But I will never be the faithless one
