

# From Dusk Till Dawn

## BABYMETAL

Something's got to go...  
Something's got to go...In the air...  
Pray your way  
In the air... the air...It got better...  
Don't start slow, then...  
(Something's got to go...)  
It got better...  
Don't start slow, then...  
(Something's got to go...)Dream... sing...  
Climate... the weather...  
Hot... colder...  
And warm... memories...Get off my face  
More day after day  
And reaching to fate  
So instincts so faint  
I'll wake from the dream  
To keep and relive  
'Cause life it is a dream  
And dream's on a BREAKWhile it's over  
Never ever  
While it's over  
Never everIn the air...  
In the air...
