

On My Way

Venture

Is this really
What youâ€™ve become
From unneeded pain
Forget all your wisdom
That makes you the victim
Lose your selfish ways
But in the darkest night
I want to hold you
Where you are

I cleared this path for you to walk on
On my way
The way you hide things makes it so hard
Concealing in everything
But if I lead you, will you follow
We can make it through tomorrow
Together you will see

Saying the same things
That made you hate
In a different way
You donâ€™t listen
And your missing
The point I made
But in the darkest night
I want to hold you
Where you are

I cleared this path for you to walk on
On my way
The way you hide things makes it so hard
Concealing in everything
But if I lead you, will you follow
We can make it through tomorrow
Together you will see
Together you will see

Wont you listen
Wont you listen
Iâ€™m crying out

Iâ€™m crying out

I cleared this path for you to walk on
On my way
The way you hide things makes it so hard
Concealing in everything
But if I lead you, will you follow
We can make it through tomorrow
Together you will see

I cleared this path for
You to walk on
The way you hide things
Makes it so hard
But if I lead you
Will you follow
we can make it through tomorrow
Together you will see
