

# Introspective Trip

## Soviet Soviet

I won't lose the light and the air  
Troubles on my mind  
Wait and when you come back you can hear the sound  
Waves are still high on the ground You can't easily watch the beach  
Liquid on your mouth  
Wait and when you come back you can hear the sound  
You were the last of the town I was dreaming of a place  
Where my body swam into the sky  
Dance and put your glitter once again  
Time is ticking, leave the fake  
All seems so  
You'll look so far away  
It's not easy to start  
It's not easy to start again  
All the drugs you sold  
All the drugs you ate  
Let me go to heaven  
Let me go to say hello
