

He's Always There

Cece Winans

He's always there to brighten up your day
Always there in every way
When it's cold and dreary
And your faith is growing weary
You don't have to be afraid
He's always there, just ask for what you need
He'll be there if you believe
Open up your heart, invite Him to come in
He'll turn your life around
And change you from within, waiting to care
He's always there, ooh, ooh
He's always there to comfort and provide

He's always there right by your side
To help you face tomorrow
Through all the joy and sorrow
His love you can't deny
He's always there, just ask for what you need
He'll be there if you believe
Open up your heart, invite Him to come in and
He'll turn your life around, hey
Open up your heart, invite Him to come in and
He'll turn your life around
And he'll change you from within, waiting to care
He's always there
