

Oxygen

Crown the Empire

I can hardly wait to float above the angels
I'm high again off your oxygen
Calling in the dark
You pulled me through the stars
I'm so high again, off your ox--off your oxygenoh oh oh ohThere's something changing inside the way I seek
the air
I thought that I needed
It's just a memory
So captivated inside the world we dreamBreathe you in, breathe you out when it's all too much
Breathe you in, breathe you out; you're my one true drug
