

Stay Down

Yung Lean

Waaay up

Somewhere[Hook]I'm rollin' blowin away, the days look the same

10 pills in my pocket, I keep blowin' my faith

Rubber, rollin' down the window, white widow, fuck fame

Forest fire, climbin' higher, real life, it can wait

I'm rollin' blowin away, the days look the same

10 pills in my pocket, I keep blowin' my faith

Rubber, rollin' down the window, white widow, fuck fame

Forest fire, climbin' higher, real life, it can waitI guess I'm bout to stay down, stay down, stay down

I guess I'm bout to stay down, stay down, stay down

Girl, I'll be around, around, around forever

I'll be around, around somewhere up there[Verse 1]Nitrous Oxide, I seen the world collide

I lost count of all the times, she ask me why

Ma-ma-magic in her eyes, Leandro's paradise

All my, all my, boys off drugs, I've been lost in this life

Fire flames, color red, 'member recent times

Stacks of shoes, got soo many, don't really the 'mount

When it's hot outside, I copped me some ice

Travel in disguise, I see trouble in her eyes

Mix it with fanta, not with sprite, wings from Calvin Klein

Forever i'll fly, all the times that I rewind, cause someway...

way high up in the sky

I got a white shirt and a tangerine belt

In a winter where the snow don't melt

Cause I keep to myself, cause I keep to myself

Rollin', rollin', rollin', I know, ah[Hook]I'm rollin' blowin away, the days look the same

10 pills in my pocket, I keep blowin' my faith

Rubber, rollin' down the window, white widow, fuck fame

Forest fire, climbin' higher, real life, it can wait

I'm rollin' blowin away, the days look the same

10 pills in my pocket, I keep blowin' my faith

Rubber, rollin' down the window, white widow, fuck fame

Forest fire, climbin' higher, real life, it can waitI guess I'm bout to stay down, stay down, stay down

I guess I'm bout to stay down, stay down, stay down

Girl, I'll be around, around, around forever

I'll be around, around somewhere up there
