Emerald Harbor

Incircles

salt diamond, sugar diamond
emerald wave, emerald islandI was very mad at God yesterday
paramedics took my mother away
I wanna write but I got nothing to say
I wanna write but I got nothing to saysince I got nothing to say I'm gonna sing about nothingsalt diamond, sugar diamond
emerald wave, emerald islandI think I got one up on the weather
spic is the new nigger
welcome in the house of a stranger
let's find something in commonlet's rob our mothers and fathers
let's set the house on fire
let's make some friends and fuck them
let's start all over againsalt diamond, sugar diamond
emerald wave, emerald island
