

Hard Life to Love

Black Sabbath

Livin' in the fast lane is easy
Till you run out of road
Friends will turn to strangers
When you're out of control
A slip of the tongue when it's done
Is often hard to see it thru
So never let your words be lies
Or they'll come looking for you
It's a hard life to love
For the price of glory you left
And threw your fortunes away
Never really cared too much
For the job or the pay
You're standin in the rain
With no cover but you never complain
You're an angry young man face to face
But your mirrors insane
It's a hard life to love
I'm simply refusing a part in your world
Cause I see, see how it burns, I see how it turns
And you're simply denying the fact that you're blind
And I see no more, I see red, I only see red
Think of all the times I was hurting
But you felt no pain
Think of all the lies you told me
Again and again
And still you see the truth
From those who continue to lie
And now you're seeking life
From those who are living to die
It's a hard life to love
I'm simply refusing a part in your world
Cause I see, see how it burns, see how it turns
And you're simply denying the fact that you're blind
And I see no more, I see red, I only see red
Livin' in the fast lane ain't easy
When you run out of road
Friends will turn to strangers
When you've nowhere to go
Don't give a damn when you're lost
Cause you'll die from it all
Laws were made to be broken
And you do it for the thrill of it all
It's a hard life to love
It's a hard life to love
I run out on road
Hard life to love
I run out on road
It's a hard life to love
