

# Baby Face

Richie Spice

Oh Na Na, Hey

Pretty little baby face  
No one could ever take your place  
Pretty little African daughter  
Stay right in my corner  
Repeat

Long as the sun comes shining  
Our love will keep on climbing  
Girl I got visions here for you

And when the rain comes falling  
You'll here my nature calling you  
Girl only you can see my through

Pretty little baby face  
No one could ever take your place  
Pretty little African daughter  
Stay right in my corner  
Repeat

The girl is mine  
My golden mine  
She bear the kids of my future  
Stay right in my corner

My precious plain  
My never rain  
Nothing can tear us apart  
Love keep us together

Pretty little baby face  
No one could ever take your place  
Pretty little African daughter  
Stay right in my corner  
Repeat

Love is so special  
And I will never stray (I will never stray)

No, no time of day  
Your love seems so real  
You say the magic a mystery  
Yes you gotta dream

Pretty little baby face  
No one could ever take your place  
Pretty little African daughter  
Stay right in my corner  
Repeat
