Bloodbrothers

Bombshell Rocks

Don't you worry about tomorrow
it will be alright, feel now sorrow
I'm right by your side
we're in this together, trust is the key
Bloodbrothers forever, destined to beI got your back and you got mine
this friendship equals quality
and heart combined
I got your back and you got mine
someone to put your trust in
in these worried timesDon't you worry about the narrow-minded
or what they say
head high, continue to walk your own way
ignore the commotion
evil tongues speak
entertainment for losers
salvation for the week.
