

Red Flower Sunset

M People

My spring and summer, autumn winter
My all time wonder man
This moment in love that we share
Could only be the present tense
My fountain of hope, my golden sun
You are my great north star
The greatest wonders of the world
Can't hold a candle to your power
Oh, I never knew I could feel so good
So happy, so much pride
Just lying here up next to you
On a magic carpet ride to
One red flower sunset
My red flower sunset
Baby, how I adore it
My red flower sunset
Don't ask, there's no such thing as time
Just a moment forever
Holding me in your arms so tight
You'll know I feel out of this world
A miracle in modern times
That's you and me, I swear to God
A celebration symphony
Played out by angels from above
Like the sands of time or a moments beat
I don't really mind
'Cause I'm right here eyes open wide
Staring back into our
One red flower sunset
My red flower sunset
Baby, how I adore it
My red flower sunset
(One red flower, one red flower, one red flower)
Red is the color of my flower
(One red flower)
Talking about my one red flower sunset
My red flower sunset
Baby how, baby, how, how I adore it
My red flower sunset
Talking about my one red flower sunset
My red flower sunset
Baby how, baby, how, how I adore it
My red flower sunset
Talking about my
