

Wastin My Time

Honky Tonk Hustlas

I don't want to sitin' right here, no more
just wastin' my life away
sittin' right here and drunk lookin' out My window it was a big bright sunny day
I got a feelin' that this ain't it there got to be somethin' more to find me somethin' worth doin' to get my drunk
ass out that door

and I be wastin' my time as those days go passin' by
life outside goes rollin' right along as I sit here gettin' high
and there ain't nothin' I won't do to keep my self from feelin' blue I keep raisin' hell until the day I die

well I was lookin' for a gal to make that perfect fit
and I finally got one that ain't no more who put up with my shit
and she let me do my thin' and that's all right, you know
cause I made a crystal clear that I ain't runnin' this goddamn show

and I be wastin' my time as those days go passin' by
life outside goes rollin' right along as I sit here gettin' high
and there ain't nothing I won't do to keep my self from feelin' blue I keep raisin' hell until the day I die

and I be wastin' my time as those days go passin' by
life outside goes rollin' right along as I sit here gettin' high
and there ain't nothing I won't do to keep my self from feeling blue I keep raisin' hell until the day I die
i keep raisin' hell until the day i die
