DramÃ¡tica

Strobo

I caught their sparkle from the runway
Such a fool for the Amazon
Nothing's wrong but it's just not right
The three of us in the naked lightNo chance for psychotic solutions
Lost in this three way dimension
Imagine you as me and I'll tell you
Just what I'm thinkingThat it feels like you
Feels like I
Feels like we do
And it feels like
Feels like I
Feels like we doAnd everyone's daze is on
Look what you've done
I killed yourself away for nothing
Look what you've done
And everyone's daze is on
Look what you've done
I killed it all away for nothing
When will you escape Dramatica?Gifts of pleasure you received
Everything you wanted from me
Chemical abduction restricted our vision
We were on auto driveDon't blame the platform for your fall
We were chasing obsession
Imagine you as me and I'll tell you
Just what was on my mind that night'Cause it feels like you
Feels like I
Feels like we do
And it feels like
Feels like I
Feels like we doAnd everyone's daze is on
Look what you've done
Give it all away for nothing
Look what you've done
And everyone's daze is on
Look what you've done
Give it all away for nothing
When will you escape Dramatica?
