

# In Me

## Kutless

Where were you last night when the party was on?  
Where were you when we all went down to the bar?  
It seems you have changed from us all  
It seems you have changed You want to know the differences between us  
You want to know why these things have changed  
You've got to know the one who lives in me  
He lives in me, in me Only seven days ago  
I let go off my life, yes I gave it all  
I let go off all I use to do  
And I gave it all away You want to know the differences between us  
You want to know why these things have changed  
You've got to know the one who lives in me  
He lives in me, in me
