Godspeed

Jenny Lewis

No good no how no man should treat you like he do.
So come on right now its time for you to get up and out of his house.
Ive known you too long to let you carry on this way.
When I was in bad shape Ill never forget what you always used to say.
What are we gonna do-hoo with you you dont make it easy on me.
What am i supposed to do-hoo with you wont let me help
Wont you.Godspeed keep the lighthouse in sight.
Godspeed to you keep the lighthouse in sight.
Godspeed to you put out the light and hope you make it alive.No telling what he'll do I would'nt want hime to hurt you in that way.
Things you dont say reach me somehow anyway.
What are we gonna do-hoo with you you dont make it easy on me.
What am I suppose to do-hoo you wont let me help you.
Why wont you let me.Godspeed keep the lighthouse in sight.
Godspeed to you keep the lighthouse in sight.
Godspeed to you put out the light and hope you make it alive.One Two
Godspeed keep the lighthouse in sight.
Godspeed to you keep the lighthouse in sight.
Godspeed to you keep the lighthouse in sight.
Godspeed to you.
